### Summary of reasons for decision:

The moving image file is deemed to be objectionable because it promotes and supports bestiality. The file contains a short video clip that depicts sexual conduct with an animal. Showing this as a pleasurable form of activity breaks down the taboos that surround these acts and encourages or reinforces a sexual interest in bestiality. The classification of this publications interferes with the right to freedom of expression affirmed by the New Zealand Bill of Rights Act 1990. However, the classification is consistent with Parliament's intention that publications promoting or supporting bestiality will be banned.
